Money Bags Coin Value Game

Description

Money Bags Coin Value Game

Money is earned by landing on a square labeled with a practical chore, such as setting the table (31 cents), or an entrepreneurial endeavor, such as a lemonade stand (15 cents).

If the spinner lands on "no nickels" then you collect your change with any coins except for nickels.

In order to collect money, the spinner is used to determine which coins can or cannot be taken from the bank.

There is an additional incentive to use critical thinking and coin combining skills.

Extra money can be earned if you land on a "Bank Exchange" space and exchange your coins (for example, two nickels for a dime).

The object of this colorful and compact board game is to earn money while winding along a cartoon path.
