

Product Code . ILS-BLE-10350

Food Calorimeter

Description

Food Calorimeter

The Food Calorimeter allows students to work out the number of energy free through the burning of food.

The included experiment introduces ideas in thermodynamics and leads to an understanding of energy and its respect to food consumption.

This simple to use methodology involves the measurement of the amendment in temperature of a sample of water from the combustion of atiny low quantity of food.

Kit includes:-

Metal suspension plate

Cork and nail food sample holder

25 mL Erlenmyer flask

Rubber stopper

Cylindrical metal stand
