

Product Code . ILS-EELE-10403

Panel For Testing Of Buchloz Relay Setup

Description

Panel For Testing Of Buchloz Relay Setup

These panels are used mostly to test the Buchloz Relays for the durable performance without any fault. The main function of these relays is to detect an abnormal condition in the tank itself only and to the alarm trip signal.

Features:-

- Digital A.C. Ammeter and Digital A.C. Voltmeter.
- Relay with gas compressor available.
- Inbuilt indicator of power on and trip indicator.
- Gas Actuated Buchloz relay.
- Both protection circuit and control circuit are in built and duly wired.
- To perform the experiments the necessary patch chords and terminals are required for the relay.

We are leading manufacturers, suppliers of Panel For Testing Of Buchloz Relay Setup for Electronics Engineering Lab Equipments. Contact us to get high quality Panel For Testing Of Buchloz Relay Setup for Electronics Engineering Lab Equipments for schools, colleges, universities, research labs,

laboratories and various industries.

Contact jLab for your Educational School Science Lab Equipments. We are best educational scientific lab equipments, educational scientific labs equipments, engineering educational equipments, engineering educational equipments in india, engineering educational lab equipments, engineering equipments suppliers in india.
