

**Product Code . ILS-EELE-10410**

## **D.C. Generator**

### **Description**

---

#### **D.C. Generator**

#### **Features:-**

- Field windings and armatures are impregnated with vacuum pressure for the best insulation strength.
- Dynamic balanced skewed rotor used for the low noise.
- High grade bushes of carbon is used trouble free and durable operations.
- A.C or D.C motors can be the prime movers.
- Durable designed fans used for excellent cooling.
- Stamping of armature with high grade silicon.
- For the non stop operations high quality materials are used in copper conductors.
- Superior quality steel used in yoke.
- For trouble free and longer life operations large size of bearings are used.
- Ratings available: 0.75 KW, 220/440V to 7.5kw 220/440V.

- 
- To avoid any sort of mishap special guard are equipped on the couplings.
  - Windings types: Shunt/Series/Compound type.

We are leading manufacturers, suppliers of D.C. Generator for Electronics Engineering Lab Equipments. Contact us to get high quality D.C. Generator for Electronics Engineering Lab Equipments for schools, colleges, universities, research labs, laboratories and various industries.

Contact jLab for your Educational School Science Lab Equipments. We are best indian biology lab equipments, lab equipment exporters, lab equipments exporter, lab equipments manufacturers, lab instruments manufacturers, laboratory equipment dealers in india.
