

Product Code . ILS-EELE-10434

Oil Cooled Transformer

Description

Oil Cooled Transformer

Features:-

- For transformer cooling perfect fins are equipped in oil cooling type.
- MS powder box in housed transformer to prevent from rust.
- Air cooled transformer made up of grade laminated core of silicon stamping used.
- Terminals insulated for both primary and secondary with properly marked.
- Copper coils are wound with perfect tappings on the both secondary and primary sides.
- Facility of outlets and inlets with stop-cocks.
- For the high insulation strength, primary and secondary coils are impregnated in vacuum.

We are leading manufacturers, suppliers of Oil Cooled Transformer for Electronics Engineering Lab Equipments. Contact us to get high quality Oil Cooled Transformer for Electronics Engineering Lab Equipments for schools, colleges, universities, research labs, laboratories and various industries.

Contact jLab for your Educational School Science Lab Equipments. We are best physics lab equipment supplier, physics lab equipment suppliers in ambala, physics lab equipments manufacturers, physics lab equipments suppliers, physics labware, school educational equipments in india
