

Product Code . ILS-ELE-10568

Amplitude Modulation And Demodulation Kit

Description

Amplitude Modulation And Demodulation Kit

Provides Sine Wave output of 1 KHz and Max. 10V p-p. Provision for Amplitude adjustments provided using Top Rotor. Amplitude Modulation and Demodulation Kit regulated power supply On board power supply of +12V and -12V are provided. Sine Wave Generator: Provides Sine waveform output using RF Carrier Generator Carrier generation using JET VHF Amplifier. Amplitude adjustments of carrier waveform possible. Frequency of the Carrier Waveform is 0.2 MHz and Max. 680mV p-p. On-board Block features Am-Modulator circuit using CE Amplifier. Amplitude Demodulator using Diode Detector method. Test points are provided to analyze signals at various points.

Contact jLab for your Educational School Science Lab Equipments. We are best school lab equipment supplier, school lab equipments, school lab equipments export, school lab equipments exporter, school lab equipments manufacturers, school lab equipments manufacturers in india.
