

Product Code . ILS-LC-10755

Trifluoro Methane Sulphonic Acid for Synthesis

Description

Solubility: Miscible with water.

Wt. per ml at 25°C: About 1.696 g

Trifluoro Methane Sulphonic Acid for Synthesis

Capacity: 100gm

Molecular Formula: CHF₃O₃S

Molecular Weight: 150.08

Assay: 97.5-102.5%

Grade: Synthesis

Description: Colourless to faint yellow liquid.
