

Product Code . ILS-PRP-11193

Pump,Electric,sbmr,bh,18cbm/hr

Description

Technical Specifications:-

Complete Electrical submersible borehole pump, for pumping non-aggressive water without solid particles, all materials approved for use with drinking water. The pump is provided with a priming screw, top non-return valve, bottom inlet strainer and water lubricated bearings.

Pump and motor are supplied with body and shaft, impeller/diffuser assemblies stainless steel, water lubricated bearings in Noril glass fiber impregnated thermoplastic resin/stainless steel, and complete with electric cabling.

The standard pump is directly coupled and equipped with a 3-phase submersible motor, suitable for power supply of 380 V/400 V - 50 Hz - 3-phase. The motor is expected to be of maximum 7.5 kW. The embedded stator winding in the submersible motor is hermetically enclosed in stainless steel. Enclosure class IP 58. Built-in protection device dry running, including level relay electrodes. Complete with motor cable.
