

Product Code . ILS-SH-11210

Squatting Plate, Plastic, W/o pan, 120x80cm

Description

General Description:-

Squatting plate, plastic, without pan, 120x80cm, for emergency situations.

Specifications:0-

The upper side will have a slight slope towards the drop hole of the plate to facilitate cleaning and hygiene.

The drop hole (of key-hole shape) must be dimensioned to avoid a small child to pass through.

Self supporting plastic direct-drop squatting plate with foot rests, prepared for water-seal installation, moulded in LLDPE, with an attached, preferably hinged, keyhole cover moulded in HDPE. Materials could differ, but to be plastic based to provide light weight, sturdy and easy cleanable slabs.

Additional reinforcement can be provided by means of a metal insert embedded in the plastic, by strong honey comb structure, or by other long term reliable means. The squatting plate must be able to securely support a weight of minimum 150 kgs at the center with the two extreme ends laying off on maximum 100 mm of firm support each, considering also tropical ambient temperatures and direct sunshine.

An arrangement is provided on the underside of the squatting plate to enable fastening of a pan/bowl and water-seal trap if required. This fastening can be by bolting or other secure principle.

Holes are provided on the extreme four corners of the squatting plate through which the four provided anchor/fixation pegs can be inserted with water-tight fit. These metal pegs of dimensions 8 mm x 275 mm are included in this scope of supply. An arrangement for their storage is suggested being provided on the underside of the squatting plate.
