

**Product Code . ILS-SH-11211**

## **Mould, Plastic, for Concrete Latrine Slab**

### **Description**

---

#### **General Description:-**

Polymeric mould for concrete latrine slab

#### **Specifications:-**

The finished latrine slab will have horizontal dimensions of (60 x 60 cm) and thickness of around 8 cm. The produced slab has two raised foot rests and a drop-hole with dimensions well selected to make it safe for use by small children. The finished surfaces have slopes towards the drop hole for easy cleaning.

Plastic form made of high quality polymers with very smooth finish. The material of the form is UV protected; impact resistant; thickness of the mould material is 4 mm and can stand rough handling under field conditions.
