

Product Code . ILS-WSA-11276

Water-Cont, LDPE,Collapsible, 20l, 1.3m Tst

Description

General Description:-

Collapsible water container, with a capacity of 20 litres, can withstand a 1.3 metre drop test when full, made from food grade material.

Specifications:-

Collapsible container, 20 litres capacity, made of PVC coated polyester fabric, polyethylene, or equivalent material.

UV resistant, can withstand ambient temperatures of -20°C to +50°C.

Suitable for drinking water storage, tested and approved by recognized and specialized laboratories.

Cleaning instructions is provided with each box of containers.

Each container can withstand a 1.3 metre drop test when full.

Drop test:-

When filled with water at 20°C, the container is able to withstand a 1.3 metre drop on a hard surface.

The test is considered successful if no leakage is observed after the drop. The height of the drop is measured from the ground level to the bottom of the container.

Fitted with:-

Carrying handle, minimum 9cm long and 3cm high, with no sharp edges.

An opening of at least 50mm diameter, with a matching screw cap for filling/discharge.

The screw cap should be held with a retaining strap.
