

Product Code . ILS-WT-11277

Chlorine/Ph, Test Kit for Diarrhoea Kit

Description

General Description:-

Chlorine/pH test kit foreseen for the Diarrhoea kit: A simple field testing kit for the rapid measuring of free, total and combined Chlorine and pH values in water, supplied with pool tester, DPD1, DPD3 and pH rapid dissolving tablets.

The simple Pool Tester for visual testing (colour comparator) has one colorimetric scale for pH and one scale for Chlorine on the same transparent plastic material block.

Measuring ranges :-

- for Chlorine from 0.1 to 3.0mg/l (or to 6.0mg/l-supplier dependent)
- for pH from 6.8 to 8.4

Specifications:-

This Diarrhoea Water Testing Kit is composed of a Simple Chlorine/pH test kit (Pool Tester) for quick

on-site visual measuring of residual chlorine (Free Available Chlorine (FAC)), combined/total Chlorine and pH values in (drinking) water (colour comparator method), supplied with additional reagents for both parameters to compose a kit which provides for 200 tests of FAC and 20 tests each of combined/total Chlorine and PH values in drinking water.
