

Product Code . ILS-CL-11352

ELISA Reader 8 Channel

Description

Description

Built-in shaking (low, medium, high and variable speeds)

Micro-plate reader for ELISA (Enzyme-Linked Immunosorbent Assay)

Platform: bench-top, open, automatic system

Panel assay for up to 8-panel assays in a single run

Accommodates all common 96-well microplates (flat, round, U or V-shaped bottom plates)

Single, dual & multi wavelength endpoint measuring modes

Extended wavelength range 380-900nm

Absorbance range 0.001-4.000 OD

Endpoint and kinetic assay modes

Eight measuring plus one reference photo-detector

Minimum 15 formulas per assay (cut-off, transformation, & validation)

Standards per assay: Retained standards for assays spanning more than 1 micro plate

Automatic and manual plate mapping of assay

Reporting of assay results in plate matrix and table formats or both

Power requirements 220V/50Hz, with voltage surge protection

50 user definable assay protocols

Storage and recall of last 10 micro-plate results

User definable sample ID

On-board qualitative & quantitative data reduction software (English language)
