

Product Code . ILS-CL-11354

Bilirubin Meter

Description

Description

Accuracy of measurement, approximately: 5%

Sample type: whole blood, volume: 10ul

Platform: bench-top, open, fully automatic system

Suitable for intensive care, emergency departments or other low-volume settings in hospitals

Analysis time: 3 seconds

With digital alphanumeric display and integrated printer

Data management complete with built-in software and possibility to print data or send data to PC

Energy saving mode (stand by) after 30 minutes

The equipment tolerates harsh environment, such as humidity up to 80% and operating temperature 15C to 35C

Quality control flags abnormal results, auto-calibration

Automated calibration and self-diagnosis

Power requirements: 220V/50Hz, with voltage surge protection
