## Chlorine/pH, Pool Tester Kit

### Description

---

#### General Description:

A simple field testing kit for the rapid measuring of free Chlorine and pH values in water, supplied with rapid dissolving tablets for min. 250 tests.

#### Technical Specifications:

The Pool tester has one colorimetric scale for pH and one scale for Chlorine on the same transparent plastic material block.

Measuring ranges:

For Chlorine from 0.1 to 3.0 mg/l (approximately)

For pH from 6.8 to 8.2

This Emergency Water Testing Kit is composed of a Simple Chlorine/pH test kit (Pool Tester) for quick on-site visual measuring of residual chlorine (Free Available Chlorine (FAC)) and pH values in (drinking) water (colour comparator method), supplied with additional reagents in 250 tablets pack for both parameters to compose a kit which provides for more than 250 tests each of FAC and PH.
