

Product Code . ILS-WT-11441

Portable Water Test Kit, Advanced, Single Incubator

Description

General Description :-

Portable Water Quality Test Kit, Advanced version with Single Incubator, Photometer and Digital meters for Microbiological and Physico-Chemical testing in the field, including start-up consumables for 200-250 tests.

Technical Specifications :-

This advanced, portable field test kit contains a Single Incubator, a Photometer, and Digital Meters together with relevant consumables for 200-250 tests. It is composed of the following, integrated in a carrying case:

Portable Water Quality Testing Laboratory for Microbiological and Physico-Chemical Testing in the lab or Field.

The kit is robust, portable, and capable of analyzing on-site, designed to test water quality at the source.

Microbiological Parameters:-

Portable Single Incubator ($44^{\circ}\text{C} \pm 0.5^{\circ}\text{C}$), having one single-compartment able to be operated for the incubation at 44°C for the analysis of Faecal Coliform. The incubator can be easily adjusted for alternative operation at 37°C for the analysis of Total Coliform.
