

Product Code . ILS-WT-11445

Conductivity Meter, Pocket, 0-100Ms

Description

General Description:

Pocket size electrical conductivity meter having a range of 0-100 mS

Technical Specifications:-

Pocket size electrical conductivity meter having a range of 0-100 mS, for electrode (1 cm-1 BNC), constructed in a strong waterproof case.

The unit has manual temperature compensation or automatic with optional T probe, automatic calibration, recorder output, in kit without electrodes.

Reference temperature is 25°C. EC 0-100 mS (0.1 mS resol.) °C 0-100 (0.5°C resol.).
