

Product Code . ILS-WT-11452

Filter Support, Plastic

Description

Technical specifications:

Filter Support to be placed upon a silicone rubber Gasket placed on top of the Buchner Flask with side-arm tabulation , to support for the 47mm diameter filter paper.

The filter component is a reusable component, which can be sterilised by ethanol wipe between uses.

The filter support is a simple plastic component that will enable drinking water testing using the membrane filtration method to be performed with standard laboratory glassware's etc.

The filter support will interface with a standard filter funnel (e.g. standard Millipore filter funnel), and an 'off the shelf' side-arm flask (Buchner or similar filtration flask type), with a vacuum pump to complete the set up. The supported filter on top of the filter support unit will be a standard dimension 47mm diameter (0.45 micron) paper filter.
