

Product Code . ILS-WT-11458

Chlorine Test, Color Comparator, Disc

Description

Technical Specifications:

The comparator is a compact, handy colorimetric unit which is suitable both for mobile and stationary analysis work. It can be supplied with a generous number of different colour scales, and provides the basis for a comprehensive, easy-to-use colorimetric analysis system.

Chlorine/pH test kit (Colour Disc Comparator Tester) for visual testing of residual chlorine and pH in drinking water.

This Comparator kit is supplied with necessary colour discs, reagents etc. for the parameters Chlorine (for determining Free, Total and Combined Chlorine), and pH.

The Kit is supplied in appropriate hard plastic case containing the Comparator, reagents for minimum 30 tests of each (i.e. at least with 30 of each DPD No. 1 and 3, and 30 Phenol Red rapid dissolving tablets), the (as necessary) discs, cells, stirring rod and detailed method instructions.

Disc measuring ranges (approximate):

for Chlorine from 0 to 4.0 mg/l

for pH from 6.5 to 8.4
