

**Product Code . ILS-WT-11468**

## **Incubator, Portable, 5.5 Liters, 12V**

### **Description**

---

#### **General Description**

INCUBATOR, Portable, for use with Microbiological Field Testing. Capacity around 5.5 liters. Supplied with 12 V vehicle and 240 V mains adaptors.

#### **Technical Specifications**

INCUBATOR, Portable, for use with Microbiological Field Testing.

Portable mini-incubator incorporated in a robust carrying case, with corner and edge protections. It has hinged outer lid, transparent inner lid, and top carrying handle.

**POWER:** The incubator runs on 12 Volts DC from the mains adaptor or from a vehicle 12V cigar lighter cable (mains adaptor and vehicle cigar lighter cable are included). Foreseen for worldwide use, the universal power supply has automatic voltage selection/range (110/ 240 Volts) and is supplied with interchangeable worldwide mains power plugs w/adaptor.

Total weight 3.6kg.

Designed to be used in the field, site or laboratory.

Capacity around 5.5 liters of useable chamber size.

Temperature Range from Ambient plus 5 to 45 degrees C +/- 0.5 degrees C. Solid state temperature

---

control technology and isolated heat reservoir chassis for thermal inertia and heat distribution without any fans or moving parts. Supplied with spirit thermometer.
