

Product Code . ILS-WT-11476

Water Purif. (NaDCC) 167mg Tabs

Description

General Description:

Water purification (NaDCC) 167 mg tablets, pack is a carton of 14,000 tablets. The carton contains 1400 foil strips of 10 tablets each.

Technical Specifications:

Water purification tablets containing 167 mg sodium dichloroisocyanurate (NaDCC), which releases 100 mg available chlorine.

The product must be suitable for treatment of water for human consumption (drinking water).

The effervescent base used in addition to the NaDCC must be of pharmaceutical or food grade quality.

Instruction for use:-

For EMERGENCY use and clouded water: Dissolve 1 tablet in 20-25 litres of clean water. Heavily contaminated water should first be filtered or allowed to settle. (Water of unknown quality, surface water and open wells)
