

Product Code . ILS-K-11655

Forces On Inclined Plane Demonstrator

Description

The Forces on Inclined Plane Demonstrator allows teachers and students to engage directly with these challenging concepts.

This engaging piece of lab equipment makes the component theory of forces a tangible reality for every student.

The built-in digital scale reveals how the Normal Force changes dependent upon the angle, and the spring scale hooked to the cart will demonstrate how the Downhill Teachers can vary angles and mass to provide a variety of variables.

Finally, a supportive and real-world alternative to the whiteboard problems.

Fun and easy to use.

Parallel Force component changes as the angle of the inclined plane is varied.

Great for both conceptual development and laboratory use.
