

Product Code . ILS-K-11660

Car and Ramp Lab

Description

The 120 cm track is exceptionally straight and rigid and is designed for easy mounting to our Workshop Stand and photogates.

An extruded aluminum track and ball bearings on every moving part of our Car and Ramp system deliver precise, repeatable data when measuring velocity and acceleration.

Our Car and Ramp will help your students see the point of the experiment instead of getting confused by error-ridden data collection.

The teacher's guide includes five sample labs covering speed, acceleration, gravitational acceleration, inclined planes, and Conservation of Energy on reproducible student worksheets. Our Car and Ramp system is your complete solution.
