

**Product Code . ILS-K-11676**

## Vertical Acceleration Demonstrator

### Description

---

Indian Lab Suppliers Two balls are mounted on the apparatus. When you release the spring, one is dropped directly down while the other is projected horizontally. Listen, and you'll hear that both hit the floor at the same time! Easy to set up and level.

No beginning physics student should miss this. It dramatically demonstrates a concept that is crucial for understanding projectile motion: the independence of horizontal and vertical components of projectile motion.

Contact jLab for your Educational School Science Lab Equipments. We are best scientific educational lab equipments, scientific equipments manufacturers, scientific lab equipment manufacturers, scientific lab plasticware, scientific laboratory equipment manufacturer, scientific laboratory equipment supplier in india.
