

Product Code . ILS-FAM-11703

Deluxe Bicycle Wheel Gyroscope

Description

Spin this bicycle wheel gyroscope, hold the handles, and try to change its axis of rotation.

The faster it spins, the harder it is to tip over.

Don't just explain it, allow students to experience angular momentum.

Stand on our Rotating Platform to experiment with gyroscopic precession and learn how satellites steer.

Best of all, the large 24in (61cm) diameter allows for better results.

Contact jLab for your Educational School Science Lab Equipments. We are best science educational equipments, science educational instruments, science lab equipments manufacturer, science laboratory instruments exporter, scientific educational equipments, scientific educational lab equipment in india.
