

**Product Code . ILS-MAM-11782**

## Magnetic Color Chips

### Description

---

This alternative to iron filings puts some color and excitement into the exploration of 3-dimensional magnetic fields.

By connecting magnets in a variety of shapes, students can see dynamic changes within the magnetic field lines.

Multi-colored plastic-coated iron chips are not only easy to handle and clean up, but also heaps of fun.

Place a strong magnet under a sheet of white cardboard and sprinkle these on for an amazing effect.
