

Product Code . ILS-EAC-11807

Series Parallel Bulb Board

Description

The board's convenient strap-connectors allow a combination of two to five lights in series-parallel mixes.

The Series Parallel Bulb Board visually demonstrates the effect of different kinds of series, parallel, and series-parallel circuit hook-ups via the brightness of light bulbs acting as resistances.

Using an electrical meter, it's possible to make quantitative measurements of the distribution of energy.

Visually experience how electrical energy is being distributed due to a particular hookup.

Features:

Lamp board with five light bulb holders and many different circuit possibilities

No more wire nests.

Demonstrates the principles of series and parallel circuits that are used in electricity.

Contact jLab for your Educational School Science Lab Equipments. We are best science educational equipments, science educational instruments, science lab equipments manufacturer, science laboratory instruments exporter, scientific educational equipments, scientific educational lab

equipment in india.
