

**Product Code . ILS-E-11824**

## Solar Hydrogen Science Kit

### Description

---

The kit also comes with a small electric motor and propeller blade as the starting point for motorized applications you can build using your futuristic solar energy storage device.

The Solar Hydrogen Science Kit lets students invent their own clean energy applications using fuel cells and renewable hydrogen created using solar energy and water.

The set comes with a complete curriculum on renewable energy with easy to follow experiment manual, assembly guide, flash animations, and background history on the technology.

Includes Horizon's complete curriculum on renewable energy on CD-ROM

Turn Solar Energy Into Hydrogen Energy.

Lessons on solar energy, hydrogen fuel cells, electrolysis, and basic electronics

Build your own solar powered inventions using a fuel cell

Contact jLab for your Educational School Science Lab Equipments. We are best school science equipments suppliers, school science kits, school science lab equipment exporter, school science lab equipment manufacturer, school science lab equipment supplier, school science lab equipment suppliers in india.
