

Product Code . ILS-EC-11832

Bulb Socket with Connectors and Magnetic Base

Description

Unique connector posts make multiple alligator clip connections simple, stackable, and easy.

Bulb socket is mounted on a durable plastic base that features two embedded neodymium magnets designed to help keep things organized on a metal or magnetic receptive surface.

The Bulb Socket with Connectors and Magnetic Base is a component of our Investigating Electrical Circuits Kit which features a custom magnetic receptive mat that also functions as a dry erase board.

Commonly used in electricity/circuit experiments for primary school science, middle school physical science and high school physics classes.
